Objectives of the Conference

The objective of the conference intends with the motto to make science based progressive knowledge available to young learners as far as it is possible. The Conference on **'Green Chemistry: An Alternative of Conventional Chemistry'** will create opportunities for the teachers, PhD scholars of this remote part of North Bengal for listening to valuable discussions on Chemistry in a out breaking way. The participants will be enlightened regarding the latest developments in the field of Chemistry specially green chemistry concerning of various important topics by some highly renowned Chemists of our country with international fame and reputation.
